

What You'll Need

Paper

Strathmore 400 series, Bristol, smooth.

Strathmore is the manufacturer.

400 Series is the quality (300 is probably fine, but sometimes has a grain to it).

Bristol is the weight.

Smooth is the finish. (Vellum is too fuzzy, and plate finish is too slick)

It is easier to be accurate if you aren't fighting texture on your paper, and it is better to have your paper thicker than what is sold as "drawing paper", which is too textured for my degree of precision.

Pencils

Tombow drawing pencils — 2H, HB, B, 2B, 4B

Blackwing Colors colored pencils. Use whatever pencils you have on hand. The colors are basic: brown, purple, and red, so there's no need to match specific colors.

Other Tools

White Plastic Eraser

Erasing Shield

Drafting Brush

Pencil Sharpener

Workable Fixative Spray

Optional Tools

Calculator

T-Square

Triangle
